## Marina Alta, Benissa

Charming south-facing villa for sale in Benissa, Montemar, with private pool, garage, and a magnificent wellness area! This well-maintained villa is situated in a quiet and established residential area of Montemar, Benissa, on a sunny plot of approximately 780 m<sup>2</sup>, offering comfort and an excellent south orientation that ensures natural light throughout the day. The main living area stands out for its comfortable and functional layout. Upon entering, a spacious and practical hall provides ample storage space. From here, access to a bright living room with open views is available, equipped with air conditioning and a cozy wood-burning stove, ideal for enjoyment in both summer and winter. The dining area, also very bright, provides direct access to a pleasant terrace and a rooftop solarium, perfect for relaxing or enjoying the surroundings. The kitchen is independent, well-equipped, and functional. The villa has two bedrooms, including a master bedroom with en-suite bathroom, which features underfloor heating, as well as an additional guest bathroom for added convenience. The property is equipped with aluminum windows with double glazing in wood-effect finish, recently replaced, ensuring energy efficiency. It has central heating via radiators with diesel, air conditioning, and a high level of comfort throughout the year. The exterior is a true oasis. The private saltwater pool has a automatic pH control system, surrounded by sunny terraces. Next to the pool is a fantastic spa area, equipped with sauna/infrared cabin, shower, and underfloor heating, ideal for maximum relaxation. This space could also be perfectly used as a separate guest studio, bringing the total to three sleeping areas. Additionally, there is a covered area perfect for creating a summer kitchen, as well as an independent space for laundry and storage. The plot also includes fruit trees, a garage, and the property is sold fully furnished. In terms of sustainability, the villa features photovoltaic panels and hot water through solar collectors and solar boiler, reducing energy consumption.
